COMPETENCY MODEL FOR
SIGNAL SYSTEMS SUPERVISOR
CLASS CODE 3839

The following competencies have been identified as those that best separate superior from satisfactory job performance in the class of SIGNAL SYSTEMS SUPERVISOR. (Numbers refers to the order of competencies in the Competency Bank.)

3. Judgment and Decision Making
8. Safety Focus
20. Job Knowledge
23. Equipment Operation
26. Electrical Understanding
28. Supervision
45. Oral Communication
47. Written Communication

On the following pages are descriptions of each competency, including a definition, the level of the competency required for the class (italicized, bolded, and underlined), examples of behavioral indicators, and satisfactory and superior performance levels.
3. JUDGMENT AND DECISION MAKING – Accurately assesses situations, seeks new information if necessary, and applies all available information to reach sound conclusions/formulate effective response.

Level of Competency Required by Job:

Level 1: Training and guidelines needed to respond to immediate situations within very specific function are provided (or supervisor available to assist).

Level 2: General information and guidance to assist in responding to a variety of situations across a range of circumstances are provided.

Level 3: Little guidance available for responding to a wide range of complex situations with far-reaching and/or enduring consequences.

Examples of Behavioral Indicators:

- Effectively responds to atypical situations.
- Asks questions or otherwise obtains additional relevant information to make a decision.
- Formulates a decision and necessary actions based on available facts.
- Correctly infers appropriate response based on information provided and existing policies, personal experience, and/or consultation with others.
- Discusses conclusions/possible responses with others before taking action as necessary.
- Considers impact of decisions on all affected parties.

Performance Levels:

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Correctly assesses routine and unusual situations and reaches appropriate conclusions for actions needed. Obtains additional information and/or consults with others as necessary.</td>
<td>Evaluates new situations accurately to establish an appropriate response or plan of action. Recognizes the impact on all affected parties, as well as the possible ramifications and/or repercussions of setting a precedent.</td>
</tr>
</tbody>
</table>
8. SAFETY FOCUS – Performs work in a way that minimizes risk of injury to self or others.

Level of Competency Required by Job:

Level 1: Maintain awareness of unsafe conditions and actions to avoid injury.

Level 2: Follow safety rules/procedures; avoid known hazards in the work environment.

Level 3: Carefully follow safety rules and procedures and consistently use all necessary safety equipment.

Examples of Behavioral Indicators:

- Wears seat belt.
- Ensures safe physical work environment by taking actions such as eliminating unstable stacks of materials, closing drawers so filing cabinets will not tip over, and keeping pathways clear of tripping hazards.
- Reviews safety procedures before beginning each job with known hazards.
- Follows safety procedures while performing work even when it takes more time.
- Uses safety equipment such as goggles, gloves, and earplugs as required or warranted.
- Frequently checks safety equipment for proper condition and operation.

Performance Levels:

**Satisfactory**
Maintains awareness of personal safety to avoid injury or property damage during all work activities.

**Superior**
“Safety first.” Places avoidance of injury or property damage above all other job requirements. Mentions the need to follow safe work practices to co-workers. Actively seeks ways to avoid injury.
Safety Focus Area

1. Knowledge of pertinent safety rules, regulations, and procedures as required by the California Occupational Safety and Health Administration (Cal-OSHA), the Department of Transportation, and the Work Area Traffic Control Handbook (WATCH) when performing or overseeing a crew engaged in the installation, maintenance or repair of traffic signal equipment, including those related to working with or around electrical equipment, controlling vehicular and pedestrian traffic, Underground Service Alert requirements, and use of personal protective equipment (PPE) sufficient to prevent damage to underground utilities, avoid service interruptions and ensure the safety of oneself and others.
20. JOB KNOWLEDGE – Knows information required to perform a specific job. Includes both widely available courses of study (for example, chemistry, human resources management, graphic arts) and City-specific information (parking regulation and ticketing practices; purchasing procedures; provisions of the City Charter).

Level of Competency Required by Job:

Level 1: Knowledge is concrete, factual, and/or procedural and may be defined by the organization. Situations in which it is applied are quite consistent.

Level 2: **Knowledge is substantive and may be defined by an external trade, field, or profession. Situations in which it is applied vary and, as such, require breadth and depth of understanding.**

Level 3: Knowledge is abstract, conceptual, and/or complex and may be supported by a well-defined academic discipline or authoritative sources (e.g., laws, ordinances, government guidelines/regulations/codes). Situations in which it is applied may vary greatly or be novel.

Examples of Behavioral Indicators:

- Performs work correctly/avoids technical (job content related) errors.
- Answers technical questions about work accurately.
- Asks few technical questions about the performance of routine work activities.
- Offers advice (“coaching”) to new employees regarding their work.
- Develops training programs for other employees.
- Sought out as a source of information by others.

Performance Levels:

**Satisfactory**

Sufficient job knowledge to perform work correctly independently. Answers technical questions about work correctly.

**Superior**

Expertise in technical job information sufficient to serve as a resource to others. May develop training manuals/programs and/or give internal and/or external presentations related to work.
Job Knowledge Areas

1. Knowledge of applicable codes, standards, specifications, and procedures required when installing, maintaining, modifying, and/or repairing traffic signal equipment such as the State of California Department of Transportation Standard Specifications (CALTRANS), National Electric Code (NEC), Standard Specifications for Public Works Construction, Special Provisions and Standard Drawings for the Installation and Modification of Traffic Signals, and the Department of Transportation traffic signal equipment specifications sufficient to ensure that equipment meets minimum quality standards and work completed by crew members is in compliance applicable codes and specifications.

2. Knowledge of applicable policies and procedures required by the Department of Transportation when submitting signal condition reports, such as the proper use of forms and the appropriate methods for routing requests sufficient to ensure information is properly transmitted to the correct section or agency.

3. Knowledge of traffic control theory and design such as phasing, coordination, and timing sufficient to recognize, interpret, and implement engineering objectives when overseeing a crew engaged in the installation, maintenance, modification and repair of traffic signal equipment.

4. Knowledge of the methods, materials, and equipment used to install, test, maintain, and repair traffic signal devices and other related equipment, such as pulling and splicing wires, setting controls, and assembling or repairing cabinets sufficient to estimate the time and resources required to complete a particular assignment, and instruct, train or evaluate crew members responsible for performing such work to ensure proper completion and conformance with necessary standards.

5. Knowledge of traffic signal terminology and symbols, including those used for traffic signal equipment, control, and repair sufficient to effectively communicate with crew members, department management, and other agencies and interpret intersection prints or engineering designs.
23. EQUIPMENT OPERATION – Operates specialized equipment in performance of job duties.

Level of Competency Required by Job:

Level 1: Operate equipment based on on-the-job training.

Level 2: Operate equipment based on attendance at a training program and practice.

**Level 3:** Operate equipment for which in-depth, complex training was required and which may require certification.

Examples of Behavioral Indicators:

- Operates equipment proficiently.
- Operates equipment with strict adherence to safety procedures.
- Understands the operation of equipment used on the job and correctly answers questions about it.
- Willingly participates in any training necessary to maintain up-to-date knowledge of equipment operation.

Performance Levels:

**Satisfactory**

Operates equipment safely and with a high degree of proficiency.

**Superior**

Operates equipment with extreme proficiency and correctly answers questions about its operation. Trains and/or coaches others in the operation of equipment.
Equipment Operation Area

1. Operation of traffic signals, systems, devices, and other related equipment such as intersection controllers, signal heads, pull boxes, and cabinet assemblies sufficient to detect and repair faulty equipment, and train new crew members regarding their proper use and function.
26. ELECTRICAL UNDERSTANDING – Comprehends the concept and the operation of flow of electrical current.

Level of Competency Required by Job:

Level 1: Know the properties of electricity relevant to the work environment and work to be performed in order to correctly perform work and recognize hazards that will be created by the failure to do so.

**Level 2:** Sufficient understanding of electricity to recognize problems and determine repair needed to prevent disaster/restore operation.

Level 3: In-depth understanding of electrical principles and phenomena sufficient to design and/or oversee the installation of complex electrical systems.

Examples of Behavioral Indicators:

- Ensures safe physical work environment by taking actions such as eliminating exposed electrical wire, faulty connections, empty sockets, and overloaded circuits.
- Recognizes the danger of fire from faulty electrical installations.
- Uses tools, equipment, and instruments properly to accomplish electrical work correctly and safely.
- Systems designed and/or for which installation is overseen perform as intended upon completion.

Performance Levels:

**Satisfactory**

Understands the operation of electricity sufficient to readily learn and perform electrical work.

**Superior**

Displays exceptional insight into the operation of electrical systems, and makes correct inferences regarding them. Promptly and accurately troubleshoots problem.
28. SUPERVISION – Ability to assume direct responsibility for all aspects of the performance of a work group, which requires knowledge and/or ability in the areas of:

- Planning and goal setting
- Creating a safe and positive work environment
- Establishing standards and training employees
- Motivating employees and team building
- Performance Management (assigning, monitoring, facilitating, reviewing and evaluating work, and providing feedback)
- Supporting and developing employees through delegation and participation
- Taking disciplinary action including progressive discipline
- Provisions of employees’ MOU’s and handling grievances
- Legal requirements including EEO, ADA, FLSA, FMLA, and Workers’ Compensation provisions
- Civil Service Commission Rules and Policies related to the management of employees
- Administrative Code provisions related to the management of employees
- Budget processes sufficient to request and justify expenditures in a correct and timely manner

Level of Competency Required by Job:

Level 1: Supervises small workgroup of employees performing the same or highly related work.

**Level 2:** Supervises a larger workgroup of employees performing various types of work.

Level 3: Supervises employees including provision of coaching and advice to subordinate supervisors.

Examples of Behavioral Indicators:

- Plans, assigns, and monitors work progress.
- Trains employees to do work.
- Evaluates work and gives positive and negative feedback.

Performance Levels:

**Satisfactory**

Proficiency in supervision sufficient to supervise a workgroup in terms of task orientation, interpersonal concerns, and personnel administration.

**Superior**

Proficiency in supervision sufficient to serve as a resource to others and/or represent department position in a public forum.
45. **ORAL COMMUNICATION** – Communicates orally in a clear, concise, and effective manner.

**Level of Competency Required by Job:**

**Level 1:** Exchange specific, job-related information orally with others in the immediate work environment or via telephone and/or radio.

**Level 2:** Obtain/provide/present general and/or job-specific information orally to a variety of others in various situations.

**Level 3:** Obtain/provide/present a diverse array of information orally at varying levels of complexity to a wide range of others across many different situations and circumstances.

**Examples of Behavioral Indicators:**

- Audience clearly understands the intended message.
- Rarely must repeat information in response to questions.
- Refrains from use of unnecessary words, phrases, or jargon.
- Provides a level of detail appropriate to the situation (avoids too much or too little detail).
- Speaks at a level appropriate to the audience in terms of terminology, sentence structure, and simplicity/complexity of ideas expressed.
- Uses words with precision (vocabulary) to convey exact information.

**Performance Levels:**

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaks clearly and audibly, providing the appropriate information and level of detail. Typically conveys the message on the first attempt. Answers questions accurately and directly.</td>
<td>Speech is direct and to the point. Speaks convincingly and with authority when appropriate. Maintains sensitivity to the audience while providing thorough information with the appropriate level of detail through the use of precise language.</td>
</tr>
</tbody>
</table>
47. WRITTEN COMMUNICATION – Communicates effectively in writing.

Level of Competency Required by Job:

   Level 1: Write notes/e-mails. Completes forms with some open-ended responses (sentences).

   Level 2: Write letters, articles/reports, and/or detailed descriptions of activities/occurrences.

   Level 3: Write lengthy reports, instruction manuals, in-depth analyses/reviews of complex issues and/or articles for publication. Reviews the written work of others.

Examples of Behavioral Indicators:

   • Writing includes the necessary information to convey the intended message.
   • Sufficiently few errors in spelling, punctuation, grammar to not interfere with the intended message or distract the reader.
   • Little editing or re-writing needed to produce a final product.
   • Composes materials efficiently.
   • Information is presented in a well organized manner.
   • Tone and degree of formality are appropriate to the purpose and audience.

Performance Levels:

   Satisfactory
   Writes material that clearly communicates the necessary information; needs little editing.

   Superior
   Precisely uses words and organizes information in a way that enhances presentation of the message. Virtually no editing needed.
