COMPETENCY MODEL FOR
BLACKSMITH
CLASS CODE 3733

The following competencies have been identified as those that best separate superior from satisfactory job performance in the class of BLACKSMITH. (Numbers refers to the order of competencies in the Competency Bank.)

1. Reading Comprehension
6. Attention to Detail
8. Safety Focus
20. Job Knowledge
23. Equipment Operation
24. Mechanical Aptitude
33. Interpersonal Skills
43. Follow Oral Directions

On the following pages are descriptions of each competency, including a definition, the level of the competency required for the class (italicized, bolded, and underlined), examples of behavioral indicators, and satisfactory and superior performance levels.
1. **READING COMPREHENSION** – Comprehends and correctly applies information presented in written form. Makes correct inferences; draws accurate conclusions.

Level of Competency Required by Job:

- **Level 1:** Concrete, specific job-related information (work orders; instructions; material/equipment labels)

- **Level 2:** General information related to field of work and assignments; (articles in trade publications; technical/instructional manuals; memos; letters; e-mails; reports)

- **Level 3:** Abstract/complex information (highly technical articles/reports in specialized area; legal or other regulatory material)

Examples of Behavioral Indicators:

- Follows written instructions correctly.
- Learns information presented in writing.
- Identifies relevant written information.
- Interprets written legal regulatory material accurately.

Performance Levels:

**Satisfactory**

Reads instructions correctly. Learns from manual and other printed material.

**Superior**

Learns from manual and may answer others’ questions. Explains information presented in written form to others.
6. ATTENTION TO DETAIL – Extremely careful in addressing all aspects of each work assignment in order to produce “completed staff work” and/or avoid any negative outcomes.

Level of Competency Required by Job:

Level 1: Ensure all aspects of work assignment are completed as directed.

Level 2: Verify that each aspect of work assignment is properly completed; make logical inference regarding additional activities that may need to be performed to produce “completed staff work.”

Level 3: Include evaluation of final work/work product in its accomplishment; make adjustments as possible to improve.

Examples of Behavioral Indicators:

- Carefully checks all aspects of work for completion and accuracy before submitting.
- Identifies errors (for example, typo’s, computations, measurements, application of laws/rules/policies) and corrects them prior to submitting.
- Cross-checks work against available resources.
- Sets up a means of checks and balances to ensure work accuracy.
- Considers changes in final work product to ensure usability by recipient.
- Completes all revisions upon request.

Performance Levels:

Satisfactory

Ensures that each task accomplished represents “completed staff work.” No remaining details/inconsistencies for others to address.

Superior

All aspects of each task completed are verified to be correct. Identifies any foreseeable consequences of work that may need to be addressed and does so.
8. SAFETY FOCUS – Performs work in a way that minimizes risk of injury to self or others.

Level of Competency Required by Job:

Level 1: Maintain awareness of unsafe conditions and actions to avoid injury.

Level 2: Follow safety rules/procedures; avoid known hazards in the work environment.

Level 3: Carefully follow safety rules and procedures and consistently use all necessary safety equipment.

Examples of Behavioral Indicators:

- Wears seat belt.
- Ensures safe physical work environment by taking actions such as eliminating unstable stacks of materials, closing drawers so filing cabinets will not tip over, and keeping pathways clear of tripping hazards.
- Reviews safety procedures before beginning each job with known hazards.
- Follows safety procedures while performing work even when it takes more time.
- Uses safety equipment such as goggles, gloves, and earplugs as required or warranted.
- Frequently checks safety equipment for proper condition and operation.

Performance Levels:

Satisfactory
Maintains awareness of personal safety to avoid injury or property damage during all work activities.

Superior
“Safety first.” Places avoidance of injury or property damage above all other job requirements. Mentions the need to follow safe work practices to co-workers. Actively seeks ways to avoid injury.
Safety Focus Area

1. Knowledge of the hazards of working with and around hot metal, machinery, and power tools, including pinch points, burn points, and projected materials and the required safety precautions, such as wearing personal protective equipment including a hard hat, leather gloves, face shield, leather apron, safety glasses, and steel toe boots sufficient to ensure compliance with industry practices and department and Cal-OSHA rules and regulations.
20. JOB KNOWLEDGE – Knows information required to perform a specific job. Includes both widely available courses of study (for example, chemistry, human resources management, graphic arts) and City-specific information (parking regulation and ticketing practices; purchasing procedures; provisions of the City Charter).

Level of Competency Required by Job:

Level 1: Knowledge is concrete, factual, and/or procedural and may be defined by the organization. Situations in which it is applied are quite consistent.

Level 2: Knowledge is substantive and may be defined by an external trade, field, or profession. Situations in which it is applied vary and, as such, require breadth and depth of understanding.

Level 3: Knowledge is abstract, conceptual, and/or complex and may be supported by a well-defined academic discipline or authoritative sources (e.g., laws, ordinances, government guidelines/regulations/codes). Situations in which it is applied may vary greatly or be novel.

Examples of Behavioral Indicators:

- Performs work correctly/avoids technical (job content related) errors.
- Answers technical questions about work accurately.
- Asks few technical questions about the performance of routine work activities.
- Offers advice (“coaching”) to new employees regarding their work.
- Develops training programs for other employees.
- Sought out as a source of information by others.

Performance Levels:

**Satisfactory**

Sufficient job knowledge to perform work correctly independently. Answers technical questions about work correctly.

**Superior**

Expertise in technical job information sufficient to serve as a resource to others. May develop training manuals/programs and/or give internal and/or external presentations related to work.
Job Knowledge Areas

1. Knowledge of the metals classified as ferrous metals such as low and medium carbon steel and non-ferrous metals including copper, brass, bronze, and aluminum sufficient to correctly identify and select the appropriate metal when forming or fabricating tools and metal parts of machinery and equipment.

2. Knowledge of the colors and temperatures associated with varying degrees of heated metals such as faint straw (390 degrees Fahrenheit), blue (575 degrees Fahrenheit), bright yellow (2,000 degrees Fahrenheit) and orange (1,700 degrees Fahrenheit) sufficient to properly temper and harden various metals to achieve the appropriate brittleness, toughness, and ductility.

3. Knowledge of methods used to weld metal such as oxygen acetylene welding, arc electric welding, shielded metal arc welding, and gas tungsten metal arc welding sufficient to select and properly carry out the appropriate welding method when fabricating and repairing tools and metal parts of machinery and equipment such as scraper blades, pipe clamps, cold chisels and pinch bars.

4. Knowledge of methods and materials used to cool heat-treated metal such as rapid cooling (quenching), slow cooling (annealing), air, water, and oil sufficient to properly carry out such activities using the appropriate materials to temper or harden the metal as part of the heat-treating process.

5. Knowledge of tools, equipment, and machinery such as anvils, drill presses, punch and shearing machines, power hammers, hand bending machines, pneumatic bending machines, hydraulic bending machines, hydraulic presses, small and large power rollers, power cut-off saws, shears, ironworker machines, oxygen acetylene torches, electric arc welding equipment, grinders, threading machines, air forging hammers, sledge hammers, ball peen hammers, and furnaces sufficient to use them in a safe and proper manner when forging, shaping, forming, bending, cutting, grinding, brazing, welding, heat-treating and tempering various types of metals into desired shapes.

6. Knowledge of the methods used to forge metal including drop forging, cold forging, roll forging, and press forging and the temperature at which they should be forged (e.g. 1,300 to 1,800 degrees Fahrenheit) sufficient to select and properly carry the appropriate technique to construct or repair tools, parts of machinery, or equipment.

7. Knowledge of the proper materials and equipment to use at the conclusion of the heat-treating process such as a wire brush, filing tool, grinding stone, emery wheel, and oil sufficient to enhance or change the appearance of metal to produce a finished product.

8. Knowledge of the methods used to braze metal such as oxygen acetylene torch brazing and furnace brazing sufficient to select and properly carry out the appropriate method to repair or construct tools and machinery parts.
23. EQUIPMENT OPERATION – Operates specialized equipment in performance of job duties.

Level of Competency Required by Job:

Level 1: Operate equipment based on on-the-job training.

Level 2: Operate equipment based on attendance at a training program and practice.

**Level 3:** Operate equipment for which in-depth, complex training was required and which may require certification.

Examples of Behavioral Indicators:

- Operates equipment proficiently.
- Operates equipment with strict adherence to safety procedures.
- Understands the operation of equipment used on the job and correctly answers questions about it.
- Willingly participates in any training necessary to maintain up-to-date knowledge of equipment operation.

Performance Levels:

**Satisfactory**
Operates equipment safely and with a high degree of proficiency.

**Superior**
Operates equipment with extreme proficiency and correctly answers questions about its operation. Trains and/or coaches others in the operation of equipment.
24. MECHANICAL APTITUDE – Accurately predicts the impact of forces on objects and assesses the behavior of other physical phenomena (e.g., volume, weight, velocity). Readily learns work involving the application of mechanical principles.

Level of Competency Required by Job:

Level 1: Maintain a safe work environment by ensuring objects in it are stable, tools and equipment are properly used.

**Level 2:** Know the physical properties of objects in the work environment and correctly anticipate the action of forces upon them; performs work accordingly (correctly and safely).

Level 3: In-depth understanding of mechanical and physical phenomena sufficient to design and/or oversee the construction of systems.

Examples of Behavioral Indicators:

- Recognizes the impact of an earthquake on objects in the work environment and re-arranges them as possible to avoid possible damage or destruction and potential to cause injury.
- Uses tools properly to accomplish work correctly and safely.
- Recognizes the effects of various actions on objects and performs only those actions that will accomplish intended result and will not cause property damage or injury.
- Systems designed and/or for which construction is overseen operate as intended upon completion.

Performance Levels:

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recognizes the operation of mechanical/physical phenomena sufficient to readily learn and perform work of a mechanical nature.</td>
<td>Displays exceptional insight into the operation of mechanical phenomena, and makes correct inferences regarding it. Promptly and accurately troubleshoots problems.</td>
</tr>
</tbody>
</table>
33. INTERPERSONAL SKILLS – Interacts effectively and courteously with others.

Level of Competency Required by Job:

**Level 1:** Interact with members of the workgroup, supervision, and/or the public in a cordial, service-oriented manner.

Level 2: Interact across department lines and with appointed City officials, and/or members of the public, at times under adversarial circumstances, in a cordial, respectful manner.

Level 3: Interact with appointed and elected City officials, department heads, representatives of external organizations, and/or the media in a cordial, effective manner.

Examples of Behavioral Indicators:

- Works well with others toward mutual objectives.
- Does not arouse hostility in others.
- “Disagrees without being disagreeable.”
- Elicits acceptance/ cooperation from others.
- Affords all individuals respect, regardless of their role or status.
- Effectively addresses concerns of politicians or others who may have their “own agenda.”

Performance Levels:

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Behaves in a courteous, respectful, cooperative manner toward co-workers, other City employees, and members of the public.</td>
<td>Facilitates positive interpersonal relations within/among workgroups and toward members of the public. Adept at finding similarities and grounds for cooperation/mutual benefit.</td>
</tr>
</tbody>
</table>
43. FOLLOW ORAL DIRECTIONS – Performs work accurately as directed orally.

Level of Competency Required by Job:

Level 1: Receive specific, complete oral directions daily or by individual task assignment throughout the day.

Level 2: Receive general instructions orally that span across days or for entire assignments.

**Level 3:** Receive general instructions/assignments orally regarding long-term objectives/responsibilities.

Examples of Behavioral Indicators:

- Does work assigned orally properly and on time.
- Asks pertinent questions for clarification of assignments.
- Performs work correctly when instructions were given orally.
- Explains assignments to others who received the same instructions.
- Performs work in accordance with general outline provided orally.
- Correctly infers details of assignments given only in general terms.

Performance Levels:

**Satisfactory**

Properly performs work when concrete, specific instructions are given orally. Asks pertinent questions when parts of the instructions are unclear or omitted.

**Superior**

Properly performs work assigned orally. Answers questions or explains work to others. Correctly infers details or portions of instructions that were omitted.
