COMPETENCY MODEL FOR
MECHANICAL HELPER
CLASS CODE 3771

The following competencies have been identified as those that best separate superior from satisfactory job performance in the class of MECHANICAL HELPER.

1. Reading Comprehension
2. Mathematics
3. Judgement and Decision Making
6. Attention to Detail
8. Safety Focus
20. Job Knowledge
24. Mechanical Aptitude
33. Interpersonal Skills

On the following pages are descriptions of each competency, including a definition, the level of the competency required for the class (bolded, italicized, and underlined), examples of behavioral indicators, and satisfactory and superior performance levels.
1. **READING COMPREHENSION** – Comprehends and correctly applies information presented in written form. Makes correct inferences; draws accurate conclusions.

**Level of Competency Required by Job:**

**Level 1:** Concrete, specific job-related information (work orders; instructions; material/equipment labels)

**Level 2:** *General information related to field of work and assignments; (articles in trade publications; technical/instructional manuals; memos; letters; e-mails; reports)*

**Level 3:** Abstract/complex information (highly technical articles/reports in specialized area; legal or other regulatory material)

**Examples of Behavioral Indicators:**

- Follows written instructions correctly.
- Learns information presented in writing.
- Identifies relevant written information.
- Interprets written legal regulatory material accurately.

**Performance Levels:**

**Satisfactory**

Reads instructions correctly. Learns from manual and other printed material.

**Superior**

Learns from manual and may answer others’ questions. Explains information presented in written form to others.
2. MATHEMATICS – Performs arithmetic or higher-level mathematical computations accurately.

Level of Competency Required by Job:

**Level 1:** Perform arithmetic computations (add, subtract, multiply, divide, ratios, percentages).

Level 2: Use algebra (substitute numbers for letters in a formula), geometry (angles, distances, area), and/or descriptive statistics (mean/median/mode, standard deviation, range).

Level 3: Apply and interpret calculus, inferential statistics (t-tests, correlations, ANOVA, multiple regression) or other very high level mathematics.

Examples of Behavioral Indicators:

- Quickly and accurately performs arithmetic computations.
- Appropriately selects and applies formulas for stated purpose.
- Correctly identifies an appropriate analysis for a specific purpose and selects the appropriate computer program for computation.
- Accurately interprets and presents results of mathematical/statistical computations.

Performance Levels:

**Satisfactory**

Knows mathematical requirements of the job and performs them correctly. Verifies work to ensure accuracy.

**Superior**

Identifies additional opportunities for the application of mathematics in work. Answers questions/trains others to assist them in their use of mathematics.
3. JUDGEMENT AND DECISION MAKING – Accurately assesses situations, seeks new information if necessary, and applies all available information to reach sound conclusions/formulate effective response.

Level of Competency Required by Job:

**Level 1:** Training and guidelines needed to respond to immediate situations within very specific function are provided (or supervisor available to assist).

Level 2: General information and guidance to assist in responding to a variety of situations across a range of circumstances are provided.

Level 3: Little guidance available for responding to a wide range of complex situations with far-reaching and/or enduring consequences.

Examples of Behavioral Indicators:

- Effectively responds to atypical situations.
- Asks questions or otherwise obtains additional relevant information to make a decision.
- Formulates a decision and necessary actions based on available facts.
- Correctly infers appropriate response based on information provided and existing policies, personal experience, and/or consultation with others.
- Discusses conclusions/possible responses with others before taking action as necessary.
- Considers impact of decisions on all affected parties.

Performance Levels:

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Correctly assesses routine and unusual situations and reaches appropriate conclusions for actions needed. Obtains additional information and/or consults with others as necessary.</td>
<td>Evaluates new situations accurately to establish an appropriate response or plan of action. Recognizes the impact on all affected parties, as well as the possible ramifications and/or repercussions of setting a precedent.</td>
</tr>
</tbody>
</table>
6. **ATTENTION TO DETAIL** – Extremely careful in addressing all aspects of each work assignment in order to produce “completed staff work” and/or avoid any negative outcomes.

**Level of Competency Required by Job:**

**Level 1:** Ensure all aspects of work assignment are completed as directed.

Level 2: Verify that each aspect of work assignment is properly completed; make logical inference regarding additional activities that may need to be performed to produce “completed staff work.”

Level 3: Include evaluation of final work/work product in its accomplishment; make adjustments as possible to improve.

**Examples of Behavioral Indicators:**

- Carefully checks all aspects of work for completion and accuracy before submitting.
- Identifies errors (for example, typo’s, computations, measurements, application of laws/rules/policies) and corrects them prior to submitting.
- Cross-checks work against available resources.
- Sets up a means of checks and balances to ensure work accuracy.
- Considers changes in final work product to ensure usability by recipient.
- Completes all revisions upon request.

**Performance Levels:**

**Satisfactory**

Ensures that each task accomplished represents “completed staff work.” No remaining details/ inconsistencies for others to address.

**Superior**

All aspects of each task completed are verified to be correct. Identifies any foreseeable consequences of work that may need to be addressed and does so.
8. **SAFETY FOCUS**— Performs work in a way that minimizes risk of injury to self or others.

**Level of Competency Required by Job:**

- **Level 1:** Maintain awareness of unsafe conditions and actions to avoid injury.

- **Level 2:** *Follow safety rules/procedures; avoid known hazards in the work environment.*

- **Level 3:** Carefully follow safety rules and procedures and consistently use all necessary safety equipment.

**Examples of Behavioral Indicators:**

- Wears seat belt.
- Ensures safe physical work environment by taking actions such as eliminating unstable stacks of materials, closing drawers so filing cabinets will not tip over, and keeping pathways clear of tripping hazards.
- Reviews safety procedures before beginning each job with known hazards.
- Follows safety procedures while performing work even when it takes more time.
- Uses safety equipment such as goggles, gloves, and earplugs as required or warranted.
- Frequently checks safety equipment for proper condition and operation.

**Performance Levels:**

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Maintains awareness of personal safety to avoid injury or property damage during all work activities.</td>
<td>“Safety first.” Places avoidance of injury or property damage above all other job requirements. Mentions the need to follow safe work practices to co-workers. Actively seeks ways to avoid injury.</td>
</tr>
</tbody>
</table>
Safety Focus Area

1. Knowledge of the hazards of working with shop machines, such as crush points, pinch points, burn points, projected materials and stored energy and the safety precautions needed to be followed, such as wearing personal protective equipment including gloves, hard hats, protective glasses and vests sufficient to ensure compliance with departmental and Cal-OSHA standards and regulations.
20. JOB KNOWLEDGE – Knows information required to perform a specific job. Includes both widely available courses of study (for example, chemistry, human resources management, graphic arts) and City-specific information (parking regulation and ticketing practices; purchasing procedures; provisions of the City Charter).

Level of Competency Required by Job:

**Level 1:** Knowledge is concrete, factual, and/or procedural and may be defined by the organization. Situations in which it is applied are quite consistent.

Level 2: Knowledge is substantive and may be defined by an external trade, field, or profession. Situations in which it is applied vary and, as such, require breadth and depth of understanding.

Level 3: Knowledge is abstract, conceptual, and/or complex and may be supported by a well-defined academic discipline or authoritative sources (e.g., laws, ordinances, government guidelines/regulations/codes). Situations in which it is applied may vary greatly or be novel.

Examples of Behavioral Indicators:

- Performs work correctly/avoids technical (job content related) errors.
- Answers technical questions about work accurately.
- Asks few technical questions about the performance of routine work activities.
- Offers advice (“coaching”) to new employees regarding their work.
- Develops training programs for other employees.
- Sought out as a source of information by others.

Performance Levels:

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sufficient job knowledge to perform work correctly independently. Answers technical questions about work correctly.</td>
<td>Expertise in technical job information sufficient to serve as a resource to others. May develop training manuals/programs and/or give internal and/or external presentations related to work.</td>
</tr>
</tbody>
</table>
Job Knowledge Areas

1. Knowledge of the proper use of basic hand and power tools and their primary functions, such as hammers, wrenches, screwdrivers, or drills, commonly found in a variety of mechanical shops including machine, sheet metal, structural steel, automotive repair, tool room, pump shops, plumber shops and other mechanical shops sufficient to safely perform basic maintenance, repairs and prep work, such as drilling holes, cutting and threading pipes and rods, or sharpening tools or to identify and provide them to journey-level mechanics performing such work.

2. Knowledge of specialized tools and equipment used by Blacksmiths, Welders, Machinists, Plumbers, Mechanical Repairers, Wastewater Treatment Mechanics and Waterworks Mechanics, such as auxiliary equipment, drill presses, threading machines, emery wheels, portable grinders and drills, and power hacksaws sufficient to properly clean such items, identify and provide to journey-level workers as requested, conduct basic prep work and perform a variety of mechanical maintenance and repair tasks.

3. Knowledge of terminology used in the fabrication and repair of various types of machinery and equipment and the cutting and shaping of metal and other materials, such as turn, mill, broach, grind, and fit sufficient to understand mechanics and supervisors’ instructions.

4. Knowledge of machine shop tools and equipment, such as jigs, fixtures, dies, mills, lathes, vertical turret lathes, band saws, and surface grinders sufficient to assist mechanics and supervisors in the repair and fabrication of machines, machine parts and equipment.

5. Knowledge of the methods used to disassemble, repair, and assemble gas, diesel, and marine engines, steam and hydraulic turbines, fire apparatus and pumps, vehicular and construction equipment, water distribution and power generating equipment, asphalt and sewage treatment plant equipment, and a variety of other mechanical, hydraulic, pneumatic, and electrical assemblies sufficient to follow the instructions given by mechanics when assisting with or performing a variety of mechanical maintenance and repair tasks.

6. Knowledge of methods and equipment used for loading, hoisting, and rigging heavy materials, such as hoists, rope, and cranes sufficient to safely lift and secure heavy materials, such as steel, pipes, automotive parts, pumps, valves and lumber onto transport vehicles.
24. MECHANICAL APTITUDE – Accurately predicts the impact of forces on objects and assesses the behavior of other physical phenomena (e.g., volume, weight, velocity). Readily learns work involving the application of mechanical principles.

Level of Competency Required by Job:

Level 1: Maintain a safe work environment by ensuring objects in it are stable, tools and equipment are properly used.

**Level 2:** Know the physical properties of objects in the work environment and correctly anticipate the action of forces upon them; performs work accordingly (correctly and safely).

Level 3: In-depth understanding of mechanical and physical phenomena sufficient to design and/or oversee the construction of systems.

Examples of Behavioral Indicators:

- Recognizes the impact of an earthquake on objects in the work environment and re-arranges them as possible to avoid possible damage or destruction and potential to cause injury.
- Uses tools properly to accomplish work correctly and safely.
- Recognizes the effects of various actions on objects and performs only those actions that will accomplish intended result and will not cause property damage or injury.
- Systems designed and/or for which construction is overseen operate as intended upon completion.

Performance Levels:

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recognizes the operation of mechanical/physical phenomena sufficient to readily learn and perform work of a mechanical nature.</td>
<td>Displays exceptional insight into the operation of mechanical phenomena, and makes correct inferences regarding it. Promptly and accurately troubleshooting problems.</td>
</tr>
</tbody>
</table>
33. INTERPERSONAL SKILLS – Interacts effectively and courteously with others.

Level of Competency Required by Job:

**Level 1:** *Interact with members of the workgroup, supervision, and/or the public in a cordial, service-oriented manner.*

Level 2: Interact across department lines and with appointed City officials, and/or members of the public, at times under adversarial circumstances, in a cordial, respectful manner.

Level 3: Interact with appointed and elected City officials, department heads, representatives of external organizations, and/or the media in a cordial, effective manner.

Examples of Behavioral Indicators:

- Works well with others toward mutual objectives.
- Does not arouse hostility in others.
- “Disagrees without being disagreeable.”
- Elicits acceptance/cooperation from others.
- Affords all individuals respect, regardless of their role or status.
- Effectively addresses concerns of politicians or others who may have their “own agenda.”

Performance Levels:

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Behaves in a courteous, respectful, cooperative manner toward co-workers, other City employees, and members of the public.</td>
<td>Facilitates positive interpersonal relations within/among workgroups and toward members of the public. Adept at finding similarities and grounds for cooperation/mutual benefit.</td>
</tr>
</tbody>
</table>
